

## Simple And Versatile

You'll appreciate Safety Turtle's unique features:

- Children love wearing the Turtle.
- No installation in the pool is required.
- Safety Turtle is more than a pool alarm. Use at home and away from home, with any fresh water.
- Water coverage and Turtle battery health are easily tested using TEST MODE. Test volume is adjustable.
- By using different Turtle colors, neighbors can enjoy the benefits of Safety Turtle without triggering each other's alarm.
- Rain or spray from lawn sprinklers won't trigger the alarm.
- The Turtle has a battery life of at least three years when used every day.
- Terrapin provides toll-free customer service.

## Choice of Turtle Colors

Turtles are available in five bright colors. Each Turtle comes with a matching color coding plug [baby Turtle] inserted in the lower left corner of the Base Station, as shown.

## Peace of Mind

Safety Turtle is an effective “last line of defence” to protect your children and pets from accidents around water hazards; including swimming pools, spas, ponds, boats and shorelines. Simply lock a Turtle wristband around your child’s wrist or secure a Turtle sensor to your pet’s collar. A fall into water causes an immediate alarm at the Base Station. Unlike other pool alarms, Safety Turtle is not disabled by pool users.

## Maximum Safety

- The Base Station sounds a loud alarm when the Turtle is immersed in fresh water. The alarm continues to sound until it is reset.
- The Turtle wristband locks securely with a key – a child cannot remove it.
- The Turtle wristbands are permanently sealed and built to withstand a child’s rugged play.
- Protection continues while the pool is in use or a pool cleaner is in operation.

## The Safety Turtle Kit

Consists of:

- Base Station with AC adaptor
- One or more Turtle sensors [of same color] on wristband or pet collar adaptor
- Battery pack and weatherproof enclosure for Base Station [accessory]
- Cigarette lighter 12 VDC adaptor [accessory]

A Base Station should be within 150 – 200 feet (45 – 60 meters) of the water. The battery pack accessory provides total portability – to power the Base Station at a beach, vacation pool, etc. – and uninterrupted backup to primary power.

Safety Turtle is not a substitute for diligent supervision or pool access barriers. Use in salt water is limited.
